

Fish Who Answer the Telephone and Other Bizarre Books

Out of the tens of thousands of books published every year, a significant proportion are unintentionally funny or just plain loopy. *Fish Who Answer the Telephone and Other Bizarre Books* brings these choice works together between two covers. Extraordinary titles include: *Aeroplane Designing for Amateurs*; *How to Draw a Straight Line*; *Ferret Facts and Fancies* and *Phone Calls from the Dead*. The contents of many of these titles are no less mind-boggling - from illustrations of different types of barbed wire, to the advice contained in *Whippings and Lashings* (always use ropes or cord of suitable thickness and do not fumble or use fancy methods), the oddness collected here is unrivalled. Some of the most unusual book jackets ever created are reproduced in full-colour, along with a selection of the most extraordinary book descriptions ever written (This book shows 178 jumps executed by some of the most prominent and important people of our society). *Fish Who Answer the Telephone and Other Bizarre Books* is a unique and utterly original collection of the worlds most unusual books and authors. Featuring full colour covers of gems such as *Scouts in Bondage* and *Moles and their Meaning* The oddest titles, including *Flashes from the Welsh Pulpit* and *Premature Burial and How it May Be Prevented* And the strangest authors, from *Marmeduke Baglehole* to *Dr F.P.H Prick van Wily*
