

# Pseudoscience and Extraordinary Claims of the Paranormal: A Critical Thinkers Toolkit

Pseudoscience and Extraordinary Claims of the Paranormal: A Critical Thinkers Toolkit provides readers with a variety of reality-checking tools to analyze extraordinary claims and to determine their validity. Integrates simple yet powerful evaluative tools used by both paranormal believers and skeptics alike. Introduces innovations such as a continuum for ranking paranormal claims and evaluating their implications. Includes an innovative Critical Thinkers Toolkit, a systematic approach for performing reality checks on paranormal claims related to astrology, psychics, spiritualism, parapsychology, dream telepathy, mind-over-matter, prayer, life after death, creationism, and more. Explores the five alternative hypotheses to consider when confronting a paranormal claim. Reality Check boxes, integrated into the text, invite students to engage in further discussion and examination of claims. Written in a lively, engaging style for students and general readers alike.
