

Self and Other: Object Relations in Psychoanalysis and Literature (Psychoanalytic Crosscurrents)

In *Self and Other*, Robert Rogers presents a powerful argument for the adoption of a theory of object relations, combining the best features of traditional psychoanalytic theory with contemporary views on attachment behavior and intersubjectivity. Rogers discusses theory in relation both to actual psychoanalytic case histories and imagined selves found in literature, and provides a critical rereading of the case histories of Freud, Winnicott, Lichtenstein, Sechehaye, and Bettelheim. At once scientific and humanistic, *Self and Other* engagingly draws from theoretical, clinical, and literary traditions. It will appeal to psychoanalysts as well as to literary scholars interested in the application of psychoanalysis to literature.

Self and Other: Object Relations in Psychoanalysis and Literature (Psychoanalytic crosscurrents) by Robert Rogers at - ISBN 10: 0814774180 even as psychoanalytic theorists have increasingly examined other nontradi- from literature outside of psychoanalysis in an effort to bridge and expand object relations in the transferencecountertransference experience of self from the earliest, preverbal experiences of interactions with caregivers.self and other object relations in psychoanalysis and literature psychoanalytic crosscurrents kindle edition by robert rogers download it once and read it on yourSelf and Other: Object Relations in Psychoanalysis and Literature (Psychoanalytic Crosscurrents) by Robert. \$44.57.
