

Sniper: American Single-Shot Warriors In Iraq And Afghanistan

From Afghanistans Hindu Kush peaks and sunbaked Helmand Valley to Baghdad, Mosul, and Ramadi in Iraq, American snipers have braved heart-pounding situations to hit their human targets dead-on. Few military feats stir the imagination like the image of a pair of riflemen waiting quietly in a building, a bomb crater, or a mountain pass for a Taliban or Al Qaeda fighter to walk into their crosshairs. Sniper presents real-life tales from the militarys frontline sniperstheir hits and their misses, the anguish of loss, and the anxiety of the first kill. Authors Gina Cavallaro and Matt Larsen provide riveting accounts of American soldiers and marines on the battlefield, and take a rare look at how Rangers and Special Forces snipers train and operate, and how the war on terror has changed the role of military snipers.
